About Focus Agri Tech

Focus Agritech — founded in 2020 as India's digital-first community platform connecting agri-startups, incubators, researchers, investors, institutions and farmers. Focus Agritechempower innovation, foster collaboration and build a connected ecosystem that supports leadership talks, funding news, startup visibility and sector events. Our platform reduces friction between ideas and adoption — enabling faster product-market fit for agritech solutions.

- Community-led discovery for startups
- Visibility for incubators & researchers
- Investor deal flow and sector intelligence

Examples of Critical Errors

1

Broken internal links

Example: https://focusagritech.com/agritech-services/2500 — returns 404. Broken links create dead ends for users and crawlers.

2

5xx server errors

Example: https://focusagritech.com/category/agritech-funding-news/

3

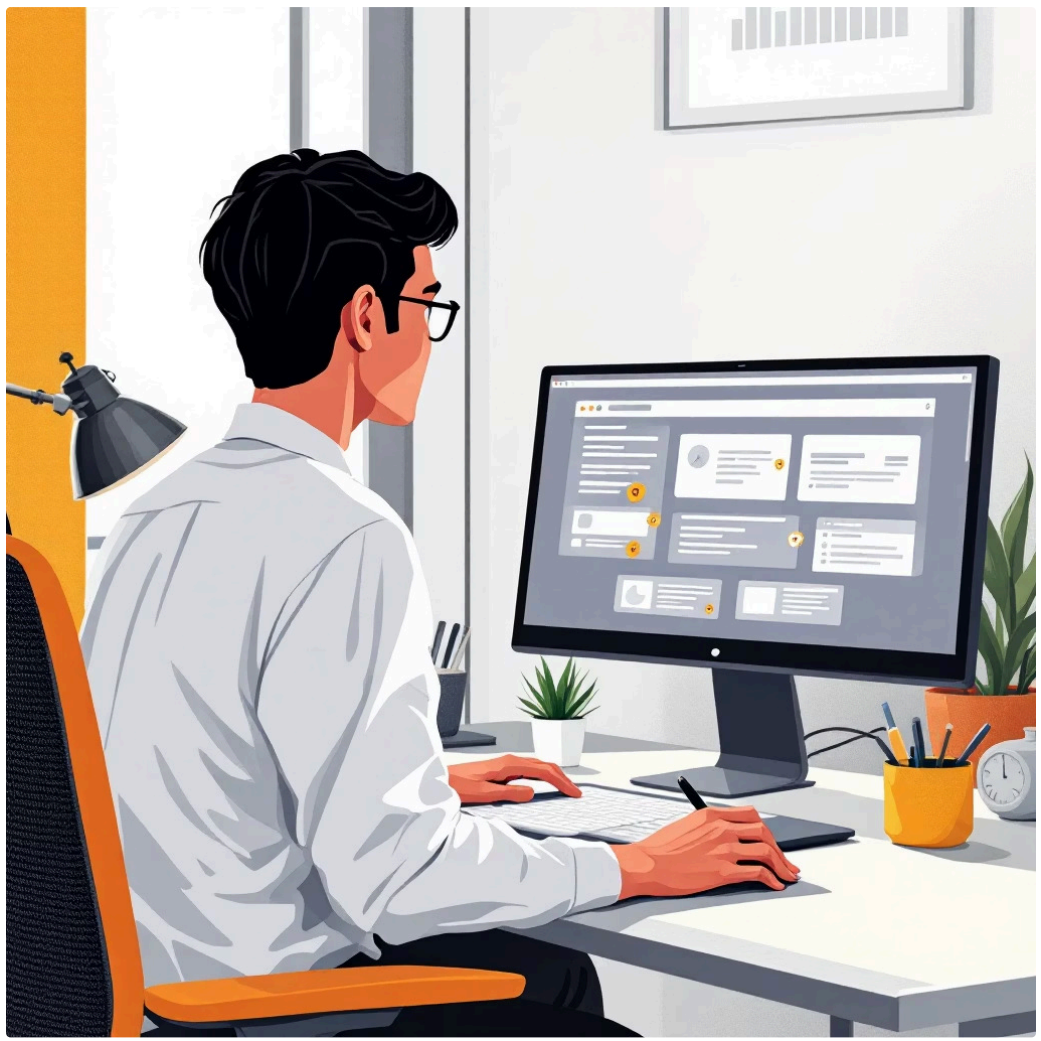

Page has Link to Broken Links

Example: https://focusagritech.com/agritech-services/

Made with GAMMA

Content & On-page Problems

- Pillar pages lack core content and topical depth (e.g., agri-incubators hub).
- Key pages are missing internal links and CTAs — reduces user pathways.
- Several blog posts appear fully AI-written and lack human validation and interlinking.

Media & Accessibility Issues

Missing alt text

Many images lack descriptive alt attributes. Add concise, keyword-aware alt text to improve accessibility and image SEO.

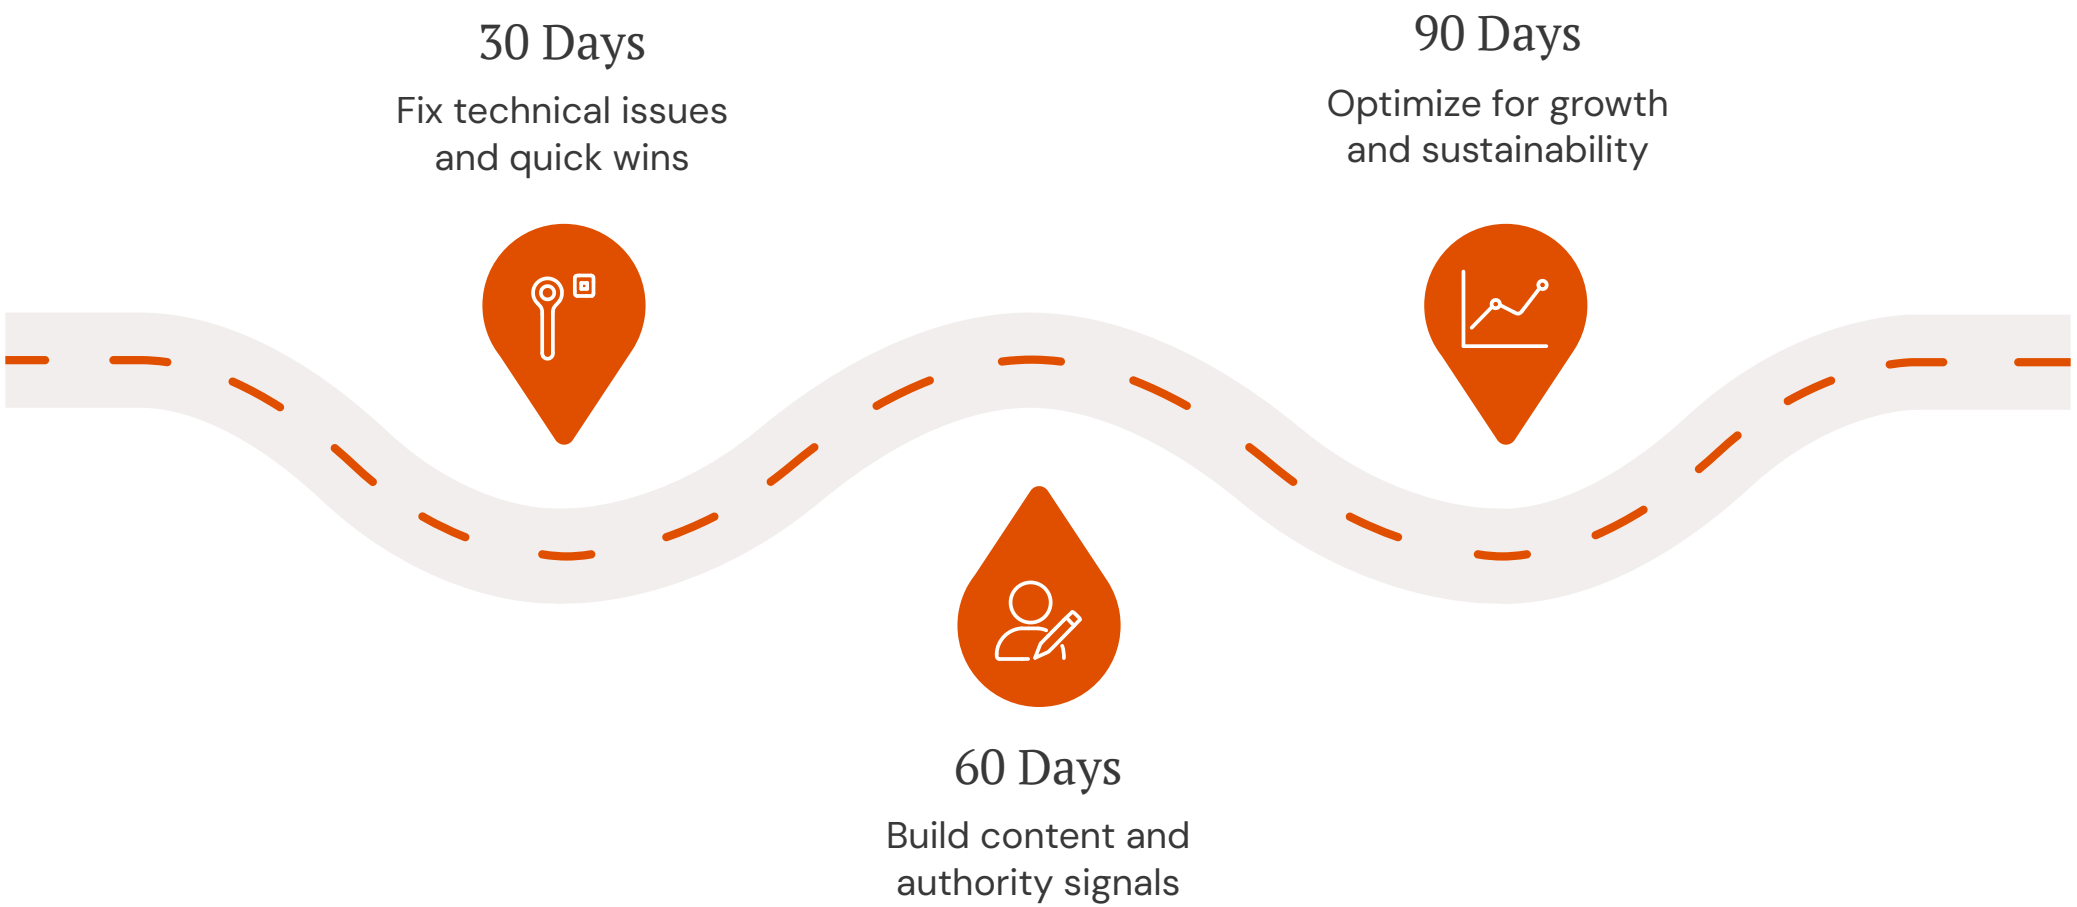

Large image file sizes

Heavy images slow page loads. Implement compression, responsive images and lazy loading to improve speed and Core Web Vitals.

30 / 60 / 90 Day Action Plan

Strategic phases align technical remediation with content and growth initiatives so improvements are measurable and sustainable.

Made with GAMMA

Execution Roadmap — Key Tasks

Days 1–30: Foundation & Quick Wins

Keyword research, fix crawl errors (404/5xx), optimise images, implement HTTPS, correct URL structures, update meta & H1 tags, add alt text, deploy schema for articles/events.

Days 31–60: Content & Authority

Publish in-depth guides, establish content hubs, start guest posting and outreach, launch community engagement on LinkedIn/Quora, and begin email nurture sequences.

Days 61–90: Optimise & Scale

Continuous technical monitoring, content refreshes with multimedia, GA4 funnels, AMP where suitable, expand backlink profile and report KPIs monthly.

Made with GAMMA

Success Metrics & Reporting

35%

Impression

Target 35%+ improvement in Impression within 90 days.

30%

Organic Traffic

Aim for 30% uplift in organic sessions quarter-over-quarter.

20

Backlinks

Acquire 20+ high-quality industry backlinks in 90 days.
